In the Matter of

Amendment of Section 73.202(b),  
Table of Allotments,  
FM Broadcast Stations.  
(St. Augustine and Neptune Beach, FL.)

MM Docket No. 01-101  
RM-10097

**NOTICE OF PROPOSED RULE MAKING****Adopted: April 18, 2001****Released: April 27, 2001****Comment Date: June 18, 2001****Reply Comment Date: July 3, 2001**

By the Chief, Allocations Branch:

1. The Allocations Branch has before it a petition for rule making filed on behalf of Clear Channel Broadcasting Licenses, Inc. ("Clear Channel") licensee of Station WFKS(FM), Channel 250C2, St. Augustine, Florida., seeking to amend the FM Table of Allotments by reallocating Channel 250C2 from St. Augustine to Neptune Beach, Florida and modifying its authorization accordingly.

2. Clear Channel seeks to invoke the provisions of Section 1.420(i) of the Commission's rules which permits the modification of a station's authorization to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest.<sup>1</sup> In support of its proposal, Clear Channel explains that the requested reallocation from St. Augustine to Neptune Beach is mutually exclusive with its existing authorization. Further, Clear Channel observes that its reallocation proposal would provide the community of Neptune Beach, which is incorporated and has a 1990 U.S. Census population of 6,816 persons, with its first local aural transmission service.

3. Clear Channel asserts that the adoption of its proposal will result in a preferential arrangement of allotments consistent with the Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992),<sup>2</sup> by providing Neptune Beach with its first local aural

<sup>1</sup> See Modification of FM and TV Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989), recon. granted in part, 5 FCC Rcd 7094 (1990).

<sup>2</sup> The allotment priorities are: (1) first full-time aural service; (2) second full-time aural service; (3) first local service and (4) other public interest matters [co-equal weight is given to priorities (2) and (3)].

transmission service. Our engineering staff finds that the gain area resulting from reallocating Channel 250C2 to Neptune Beach contains 1,799.9 square kilometers with a population of 47,035 persons, while the loss area contains 1,209.1 square kilometers with a population of 39,010. No white or gray service areas would be created within the loss area and there are no white or gray service areas within the proposed gain area. Further, all of the loss area will continue to receive well over five aural services while the gain area already receives well over five aural services. We note that the reallocation of Channel 250C2 to Neptune Beach would not deprive St. Augustine of its sole local transmission outlet, because St. Augustine is currently served by five local aural transmission services in addition to Station WFKS(FM).

4. In accordance with Commission policy, if a rulemaking proponent intends to move its authorized facility to a community that is within an Urbanized Area or if the proposed facility would place a city grade (70 dBu) signal over 50 percent or more of the Urbanized Area, the proponent is required to demonstrate that the intended city of license is sufficiently independent of the central city to justify a first local service preference.<sup>3</sup> Neptune Beach is a community located within the Urbanized Area of Jacksonville. Clear Channel has provided a Tuck analysis to demonstrate that Neptune Beach is sufficiently independent of Jacksonville to merit a first local service preference.<sup>4</sup> We believe that Clear Channel's proposal warrants consideration since the allotment of Channel 250C2 to Neptune Beach would provide a first local aural transmission service to Neptune Beach.

5. Since Clear Channel's reallocation request is consistent with the provisions of Section 1.420(i) of the Commission's Rules, we shall propose to modify the authorization of Station WFKS(FM) without entertaining competing expressions of interest in the use of Channel 250C2 at Neptune Beach, Florida, or requiring Clear Channel to demonstrate the availability of an additional equivalent channel for use by other parties.

6. Channel 250C2 can be allotted to Neptune Beach, Florida, consistent with all spacing and city signal coverage requirements, utilizing Clear Channel's requested site at the coordinates of 30-16-53 North Latitude and 81-34-15 West Longitude.

7. Accordingly, we seek comments on the proposed amendment to the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, with respect to the communities listed below, as follows:
